Tutorials

Consistent Character Prompt

In this tutorial, you will learn how to achieve character consistency in your Midjourney images thanks to its new feature, “Character Reference.”

Step-by-step:

```
Visit Midjourney’s Discord.

Type --cref URL after your prompt with a URL to an image of a character

You can use --cw to modify reference 'strength' from 100 to 0.

Strength 100 (--cw 100) is default and uses the face, hair, and clothes, while strength 0 (--cw 0) just focuses on the face (good for changing things like hair)
```

Example prompt: “An empty cornfield beneath an ominous stormy sky --cref https://www….”
